

Fall 2026 Holland Lops

PLEASE READ!

Babies are ready to go home Friday October 30th

Once you have picked your bunny out, we will discuss a day and time for pick up or a ship date.

All the bunnies below are expected to be between 3-4 pounds full grown.

- Bunnies are blank slates. They are as sweet as you make them, meaning any of these bunnies will make wonderful pets if you're willing to spend quality time with them. **I cannot spend quality time with each one to determine their individual personalities. Please do not ask what a particular bunny's personality is like.** I would not be able to give you a fair assessment. The most hyper bunny today could be the calmest tomorrow! I don't think you'll have a solid grasp on your bunny's personality until they are home with you and have adjusted for a few weeks.
- It is difficult to sex a rabbit at such an early age! I believe the below genders to be correct, but accidents can happen.
- It's normal for baby mini plush lops to not be "loppy" yet. As they grow their crown widens and their ears begin to fall.
- Please do not request additional photos.
- If you're planning to ship your bunny, now is the time to finalize shipping plans!
- Please text me with your pick as soon as possible!
- Please read through the sales agreement on www.elliesrabbitry.com for information on warranty.

Any questions please call or text:

(859) 457-7769

Thanks again for getting a bunny from Ellie's Rabbitry!

Ellie

6. Blue Eyed White Doe
